

Learn, Create & Succeed with us

MASTERING FULL STACK DATA ANALYTICS

Discover your data-driven superpowers today!

INTRODUCING PW SKILLS

PW Skills is a leading tech upskilling platform specializing in cutting-edge AI and Web-related courses with a strong focus on industry practices to help you progress in your professional career.

PW Skills has empowered over **3.5 Lakh learners till date.**

30%

The demand for Data Analytics is expected to grow by **30%** by 2028.

The global Data Analytics market is projected to reach **\$345.5 billion** by 2028.

13.5%

Data Analytics has a CAGR growth rate of **13.5%** by 2024

Transform **Data**

&

Ignite **Success**

UNLEASH YOUR DATA SUPERPOWERS!

Welcome to the world of Data Analytics! In this program, you will embark on a transformative journey that unveils the power hidden within data.

Discover the art of harnessing data to make informed decisions, uncover patterns, and predict trends. Through hands-on learning and cutting-edge tools, you will master the art of data-driven decision-making, becoming a proficient problem solver in today's data-driven landscape. Embrace the future of analytics, where every data point holds the potential for growth and success.

The journey starts here!.....

Multiple interview opportunities through the program's job portal and exclusive mega job fairs.

Updated program as per current and future trends.

State Of The Art Curriculum

Industry Exposure

Hands-On Learning

The industry-relevant projects and mentorship provide valuable insights across various domains.

Gain practical insights, and solve real-world challenges in real-time.

COURSE CURRICULUM

SQL

- Introduction to MySQL
- SQL Commands
- Operators in SQL
- Constraints
- Set Operators
- Joins
- Subqueries
- Window Functions
- Normalization

Python

- Python
- Python Basic Building
- Python Data Structure
- Python Loops & Functions
- Functions
- Exception HandlingClass& ObjectNumpy
- Pandas
- Matplotlib and seaborn
- Visualizing Distribution of the Data
- Linear Regression and Relationship

PowerBI

- Introduction to Power BI
- Power Query Editor
- Visualizations
- Data modeling
- DAX
- Connectivity
- Creating reports

Excel

- Introduction
- Functions
- Data Cleaning
- Data Validation
- Visualization
- Summarization
- Macros and VBA

COURSE CURRICULUM

Statistics

- Maths For Data Science (Linear Algebra 1)
- Maths For Data Science (Linear Algebra 2)
- Maths For Data Science (Probability)
- Maths For Data Science (Calculus)
- Maths For Data Science (Calculus)
- Maths For Data Science (Calculus)

ML

- Machine Learning (Supervised - 1)
- Machine Learning (Supervised - 2)
- Machine Learning (Supervised - 3)
- Machine Learning (Unsupervised)
- Machine Learning (Time Series)
- End To End ML Projects With Deployment

Tableau

- Tableau introduction
- Connect Tableau With Different Data Sources
- Tableau prep
- Charts
- Filters
- Tableau calculations
- LOD
- Groups, Bins, Hierarchies, sets & parameter
- Tableau server
- Dashboarding
- Tableau Story
